

Assembly Instructions for the Slatwall Spinner

Header Holder

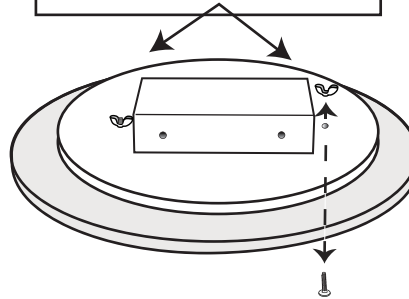

Parts:

- Header Holder
- Top Core
- Connector (attached to Top Core)
- Bottom Core
- Spinner Base
- Machine Screws (10)

Important!

Remove shipping bolts and wingnuts from base before assembly

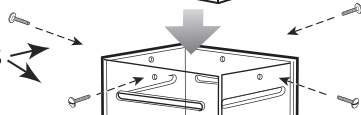

Top Core

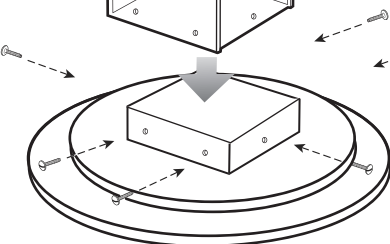

Connector Block

Screws

Bottom Core

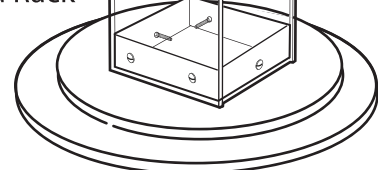

Screws

1, Place Bottom Core over block on base, matching screw holes. Insert a screw in each hole and tighten evenly making sure the core stays seated evenly on base.

2 Place the Top Core (with the Connector attached) on top of the Bottom Core. Fasten securely with the screws.

3 Peel away adhesive film and attach header holder to top.

Assembled Rack
